

SAFETY DATA SHEET

VEET® Easy-Gelwax™ Precision Wax Strips Kit - Face - Wax Strips

HEALTH • HYGIENE • HOME

1. Product and company identification

- Product name** : VEET® Easy-Gelwax™ Precision Wax Strips Kit - Face - Wax Strips
- Distributed by** : RB Health (US) LLC
Morris Corporate Center IV
399 Interpace Parkway (P.O. Box 225)
Parsippany, New Jersey 07054-0225
+1 973 404 2600
- Emergency telephone number (Medical)** : 1-800-338-6167
- Emergency telephone number (Transport)** : 1-800-424-9300 (U.S. & Canada) CHEMTREC
Outside U.S. and Canada (North America), call Chemtrec:703-527-3887
- Website:** : <http://www.rbnainfo.com>
- Product use** : To remove unwanted body hair.

This SDS is designed for workplace employees, emergency personnel and for other conditions and situations where there is greater potential for large-scale or prolonged exposure, in accordance with the requirements of USDOL Occupational Safety and Health Administration.

This SDS is not applicable for consumer use of our products. For consumer use, all precautionary and first aid language is provided on the product label in accordance with the applicable government regulations, and shown in Section 15 of this SDS.

- SDS #** : D8278945 v5.0
- Formulation #:** : MonsA3ZJFR / 8190410 (Sensitive)
MonsA3ZJF8 / 8222667 (Dry)
MonsA3ZJEQ / 8222673 (Supreme Essence)
MonsA3ZJDV / 8222665 (Normal)

2. Hazards identification

- Classification of the substance or mixture** : Not classified

GHS label elements

- Hazard pictograms** : Not applicable.
- Signal word** : No signal word.
- Hazard statements** : No known significant effects or critical hazards.

Precautionary statements

- General** : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
- Prevention** : Not applicable.
- Response** : Not applicable.

D8278945 v5.0

2. Hazards identification

Storage	: Not applicable.
Disposal	: Not applicable.
Supplemental label elements	: None known.
Hazards not otherwise classified	: None known.

3. Composition/information on ingredients

Substance/mixture : Cold wax strips.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

4. First aid measures

Description of necessary first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.

Over-exposure signs/symptoms

Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

D8278945 v5.0

5. Fire-fighting measures

Extinguishing media

- Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known.
- Specific hazards arising from the chemical** : No specific fire or explosion hazard.
- Hazardous thermal decomposition products** : No specific data.
- Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
- For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up

- Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

D8278945 v5.0

7. Handling and storage

Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8).
- Conditions for safe storage, including any incompatibilities** : Store between the following temperatures: 5 to 40°C (41 to 104°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

8. Exposure controls/personal protection

Control

Occupational exposure limits

Not applicable.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
- Skin protection**
- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

D8278945 v5.0

9. Physical and chemical properties

Appearance

Physical state	: Liquid. [Wax Strips]
Color	: Not available.
Odor	: Not available.
Odor threshold	: Not available.
pH	: Not available.
Melting point	: Not available.
Boiling point	: Not available.
Flash point	: Not available.
Evaporation rate	: Not available.
Flammability (solid, gas)	: Not available.
Lower and upper explosive (flammable) limits	: Not available.
Vapor pressure	: Not available.
Vapor density	: Not available.
Relative density	: 1.02 to 1.06
Solubility	: Insoluble in the following materials: cold water and hot water.
Solubility in water	: See Section 9.1 Solubility(ies)
Partition coefficient: n-octanol/water	: Not available.
Auto-ignition temperature	: Not available.
Decomposition temperature	: Not available.
Viscosity	: Dynamic (room temperature): 280 to 500 mPa·s (280 to 500 cP)
Flow time (ISO 2431)	: Not available.

10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. Toxicological information

Information on toxicological effects

Acute toxicity

Not available.

Conclusion/Summary : No known significant effects or critical hazards.

Irritation/Corrosion

Not available.

Conclusion/Summary

Code # : D8278945 US

SDS # : D8278945 v5.0

Date of issue : 03/01/2019

5/14

D8278945 v5.0

11. Toxicological information

Skin : No known significant effects or critical hazards.

Eyes : No known significant effects or critical hazards.

Respiratory : No known significant effects or critical hazards.

Sensitization

Not available.

Conclusion/Summary

Skin : No known significant effects or critical hazards.

Respiratory : No known significant effects or critical hazards.

Mutagenicity

Not available.

Conclusion/Summary : No known significant effects or critical hazards.

Carcinogenicity

Not available.

Conclusion/Summary : No known significant effects or critical hazards.

Reproductive toxicity

Not available.

Conclusion/Summary : No known significant effects or critical hazards.

Teratogenicity

Not available.

Conclusion/Summary : No known significant effects or critical hazards.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

Aspiration hazard

Not available.

Information on the likely routes of exposure : Not available.

Potential acute health effects

Eye contact : No known significant effects or critical hazards.

Inhalation : No known significant effects or critical hazards.

Skin contact : No known significant effects or critical hazards.

Ingestion : No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact : No specific data.

Inhalation : No specific data.

Skin contact : No specific data.

Ingestion : No specific data.

D8278945 v5.0

11. Toxicological information

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Long term exposure

Potential immediate effects : Not available.

Potential delayed effects : Not available.

Potential chronic health effects

Not available.

Conclusion/Summary : Based on available data, the classification criteria are not met.

General : No known significant effects or critical hazards.

Carcinogenicity : No known significant effects or critical hazards.

Mutagenicity : No known significant effects or critical hazards.

Teratogenicity : No known significant effects or critical hazards.

Developmental effects : No known significant effects or critical hazards.

Fertility effects : No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Route	ATE value
Oral	56269.1 mg/kg

12. Ecological information

Toxicity

Not available.

Persistence and degradability

Not available.

Bioaccumulative potential

Not available.

Mobility in soil

Soil/water partition coefficient (K_{oc}) : Not available.

Other adverse effects : No known significant effects or critical hazards.

D8278945 v5.0

13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

14. Transport information

Regulatory information	UN number	Proper shipping name	Classes	PG*	Label	Additional information
DOT Classification	Not Regulated	Not applicable.	Not available.	-		-
TDG Classification	Not Regulated	Not applicable.	Not available.	-		-
Mexico Classification	Not applicable.	Not applicable.	Not applicable	-		-
IMDG Class	Not Regulated	Not applicable.	Not available.	-		-
IATA-DGR Class	Not Regulated	Not applicable.	Not available.	-		-

Special precautions for user : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

PG* : Packing group

15. Regulatory information

U.S. Federal regulations : **TSCA 8(a) PAIR:** 2-(4-tert-butylbenzyl)propionaldehyde
TSCA 8(a) CDR Exempt/Partial exemption: Not determined
Commerce control list precursor: 2,2',2''-nitriлотriethanol
United States inventory (TSCA 8b): All components are listed or exempted.

D8278945 v5.0

15. Regulatory information

Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs) : Not listed

Clean Air Act Section 602 Class I Substances : Not listed

Clean Air Act Section 602 Class II Substances : Not listed

DEA List I Chemicals (Precursor Chemicals) : Not listed

DEA List II Chemicals (Essential Chemicals) : Not listed

SARA 302/304

Composition/information on ingredients

No products were found.

SARA 304 RQ : Not applicable.

SARA 311/312

Classification : Not applicable.

Composition/information on ingredients

No products were found.

State regulations

Massachusetts : None of the components are listed.

New York : None of the components are listed.

New Jersey : The following components are listed: MINERAL OIL (UNTREATED and MILDLY TREATED); TITANIUM DIOXIDE; TITANIUM OXIDE (TiO₂)

Pennsylvania : The following components are listed: TITANIUM OXIDE (TiO₂)

Canada

WHMIS (Canada) : Class D-2A: Material causing other toxic effects (Very toxic).

Canadian lists

Canadian NPRI : The following components are listed: White mineral oil

CEPA Toxic substances : None of the components are listed.

Canada inventory : All components are listed or exempted.

Label elements

Precautionary measures : For legs:
 Precautions
 Retain outer pack
 Read and follow all precautions and directions before use.
 Suitable for use on the legs, arms, underarms and bikini line.
 NOT SUITABLE for use on head, face, eyes, nose, ears, around the anus, genitals and nipples or any other body parts.
 Do not use on varicose veins, scars, moles, spotty, broken, irritated, sunburnt skin or on skin that has had an adverse reaction to waxes in the past.
 Always leave 72 hours between hair removal sessions.
 Check with your doctor before using if you are on any medication which can affect the skin or if you suffer from any skin related disorder.

15. Regulatory information

Waxing is not suitable for the elderly, diabetics or people taking oral retinoids. If you have not waxed before we recommend starting by removing hair from the legs. Only when you have experience then progress to the sensitive areas of underarm and bikini line.

Before use, make sure your skin is dry, non-irritated, and free of creams, oils or deodorant.

Before every use, TEST YOUR SKIN REACTION by applying and removing the product to a small part of the area you wish to treat, following the directions for use. If after 24 HOURS there is no adverse reaction, continue to use.

If you experience any smarting/tingling during use, remove the product immediately using the back of a used strip, Perfect Finish wipe or baby oil and then rinse thoroughly with cold water. If a burning sensation persists, seek medical advice.

If "Tips for best results" are removed to save space, the following precaution must be added here (Do not wax over the same area more than once)

Skin may be more sensitive for a short time after use, so avoid scratching.

After use we recommend waiting 24 hours before using anti-perspirant, any other perfumed product, using artificial tanning equipment, swimming or sunbathing.

If you run out of Perfect Finish wipes, you can use baby oil. Don't use water, soap or alcohol to remove the wax.

KEEP OUT OF REACH OF CHILDREN.

In case of ingestion, seek medical advice immediately and show outer pack.

Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Waxing is suitable for pregnant women but may cause bruising.

Store any remaining strips in a cool, dry place.

Bikini and underarms:

Precautions

Retain outer pack

Read and follow all precautions and directions before use.

Suitable for use on the underarms and bikini line.

NOT SUITABLE for use on head, face, eyes, nose, ears, around the anus, genitals and nipples or any other body parts.

Do not use on varicose veins, scars, moles, spotty, broken, irritated, sunburnt skin or on skin that has had an adverse reaction to waxes in the past.

Always leave 72 hours between hair removal sessions.

Check with your doctor before using if you are on any medication which can affect the skin or if you suffer from any skin related disorder.

Waxing is not suitable for the elderly, diabetics or people taking oral retinoids.

If you have not waxed before we recommend starting by removing hair from the legs.

Only when you have experience then progress to the sensitive areas of underarm and bikini line.

Before use, make sure your skin is dry, non-irritated, and free of creams, oils or deodorant.

Before every use, TEST YOUR SKIN REACTION by applying and removing the product to a small part of the area you wish to treat, following the directions for use. If after 24 HOURS there is no adverse reaction, continue to use.

If you experience any smarting/tingling during use, remove the product immediately using the back of a used strip, Perfect Finish wipe or baby oil and then rinse thoroughly with cold water. If a burning sensation persists, seek medical advice.

If "Tips for best results" are removed to save space, the following precaution must be added here (Do not wax over the same area more than once)

Skin may be more sensitive for a short time after use, so avoid scratching.

After use we recommend waiting 24 hours before using any perfumed product, using artificial tanning equipment, swimming or sunbathing.

If you run out of Perfect Finish wipes, you can use baby oil. Don't use water, soap or alcohol to remove the wax.

15. Regulatory information

KEEP OUT OF REACH OF CHILDREN.

In case of ingestion, seek medical advice immediately and show outer pack.

Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Waxing is suitable for pregnant women but may cause bruising.

Store any remaining strips in a cool, dry place.

Face:

Precautions

Retain outer pack

Read and follow all precautions and directions before use.

Suitable for use on upper lip, cheeks and chin.

NOT SUITABLE for use on the rest of the face, head, ears, around the anus, genitals and nipples or any other body parts.

Do not use on cold sores, varicose veins, scars, moles, spotty, broken, irritated, sunburnt skin or on skin that has had an adverse reaction to waxes in the past.

Always leave 72 hours between hair removal sessions.

Check with your doctor before using if you are on any medication which can affect the skin or if you suffer from any skin related disorder.

Waxing is not suitable for the elderly, diabetics or people taking oral retinoids.

If you have not waxed before we recommend starting by removing hair from the legs.

Only when you have experience then progress to the sensitive areas of face.

Before use, make sure your skin is dry, non-irritated, and free of creams, oils or deodorant.

Before every use, TEST YOUR SKIN REACTION by applying and removing the product to a small part of the area you wish to treat, following the directions for use. If after 24 HOURS there is no adverse reaction, continue to use.

If you experience any smarting/tingling during use, remove the product immediately using the back of a used strip, Perfect Finish wipe or baby oil and then rinse thoroughly with cold water. If a burning sensation persists, seek medical advice.

Do not wax over the same area more than once.

Skin may be more sensitive for a short time after use, so avoid scratching.

After use we recommend waiting 24 hours before using any perfumed product, using artificial tanning equipment, swimming or sunbathing.

If you run out of Perfect Finish wipes, you can use baby oil. Don't use water, soap or alcohol to remove the wax.

KEEP OUT OF REACH OF CHILDREN.

In case of ingestion, seek medical advice immediately and show outer pack.

Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Waxing is suitable for pregnant women but may cause bruising.

Recommended Safety Label Language:

For external use only.

KEEP OUT OF REACH OF CHILDREN.

In case of ingestion, consult a doctor immediately and show the outer pack.

Before every use, test your skin reaction by applying and removing the product to a small part of the area you wish to treat, following the directions for use. If after 24 hours there is no adverse reaction, continue to use.

If you experience any smarting/tingling during use, remove the product immediately using the back of a used strip, Perfect Finish Wipe or baby oil and then rinse thoroughly with cold water. If a burning sensation persists, seek medical advice.

Avoid contact with the eyes. In case of contact with the eyes seek medical advice immediately.

New Typhoon Cold wax strip Supreme essence - TDS 8222673:
