

# SAFETY DATA SHEET

AIR WICK® STICK UPS® Air Freshener - Sparkling Citrus

HEALTH • HYGIENE • HOME

## 1. Product and company identification

**Product name** : AIR WICK® STICK UPS® Air Freshener - Sparkling Citrus

**Distributed by** : Reckitt Benckiser LLC.  
Morris Corporate Center IV  
399 Interpace Parkway (P.O. Box 225)  
Parsippany, New Jersey 07054-0225  
+1 973 404 2600

Reckitt Benckiser (Canada) Inc.  
1680 Tech Avenue, Unit #2  
Mississauga, Ontario L4W 5S9  
CANADA  
Telephone: +1 905 283 7000

**Emergency telephone number (Medical)** : 1-800-338-6167

**Emergency telephone number (Transport)** : 1-800-424-9300 (U.S. & Canada) CHEMTREC  
Outside U.S. and Canada (North America), call Chemtrec: 703-527-3887

**Website:** : <http://www.rbnainfo.com>

**Product use** : Air care, continuous action (solid and liquid)

This SDS is designed for workplace employees, emergency personnel and for other conditions and situations where there is greater potential for large-scale or prolonged exposure, in accordance with the requirements of USDOL Occupational Safety and Health Administration.

This SDS is not applicable for consumer use of our products. For consumer use, all precautionary and first aid language is provided on the product label in accordance with the applicable government regulations, and shown in Section 15 of this SDS.

**SDS #** : D8061247 v5.0

**Formulation #:** : #155991\_5

## 2. Hazards identification

**Classification of the substance or mixture** : Not classified

### GHS label elements

**Hazard pictograms** : Not applicable.

**Signal word** : No signal word.

**Hazard statements** : No known significant effects or critical hazards.

### Precautionary statements

**Code #** : FF155991 (D8061247) **SDS #** : D8061247 v5.0 **Date of issue** : 17/05/2017  
NA

D8061247 v5.0

## 2. Hazards identification

|   |   |
|---|---|
| <b>General</b>                          | : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. |
| <b>Prevention</b>                       | : Not applicable.   |
| <b>Response</b>                         | : Not applicable.   |
| <b>Storage</b>                          | : Not applicable.   |
| <b>Disposal</b>                         | : Not applicable.   |
| <b>Supplemental label elements</b>      | : None known.   |
| <b>Hazards not otherwise classified</b> | : None known.   |

## 3. Composition/information on ingredients

**Substance/mixture** : Mixture

| <b>Ingredient name</b>                     | <b>%</b> | <b>CAS number</b> |
|--|----------|-------------------|
| dl-Limonene (racemic)                      | 0.1 - 1  | 138-86-3          |
| alpha-Hexylcinnamaldehyde                  | 0.1 - 1  | 101-86-0          |
| dl-Citronellol                             | 0.1 - 1  | 106-22-9          |
| Citral                                     | 0.1 - 1  | 5392-40-5         |
| Linalool                                   | 0.1 - 1  | 78-70-6           |
| 2,4-Dimethyl-3-cyclohexen-1-carboxaldehyde | 0.1 - 1  | 68039-49-6        |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

**There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.**

## 4. First aid measures

### Description of necessary first aid measures

|                     |   |
|---------------------|---|
| <b>Eye contact</b>  | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.   |
| <b>Inhalation</b>   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.   |
| <b>Skin contact</b> | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.  |
| <b>Ingestion</b>    | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

|                     |   |
|---------------------|---|
| <b>Eye contact</b>  | : No known significant effects or critical hazards. |
| <b>Inhalation</b>   | : No known significant effects or critical hazards. |
| <b>Skin contact</b> | : No known significant effects or critical hazards. |
| <b>Ingestion</b>    | : No known significant effects or critical hazards. |

#### Over-exposure signs/symptoms

|                    |                     |
|--------------------|---------------------|
| <b>Eye contact</b> | : No specific data. |
|--------------------|---------------------|

D8061247 v5.0

## 4. First aid measures

- Inhalation** : No specific data.
- Skin contact** : No specific data.
- Ingestion** : No specific data.

### Indication of immediate medical attention and special treatment needed, if necessary

- Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments** : No specific treatment.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

## 5. Fire-fighting measures

### Extinguishing media

- Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known.

- Specific hazards arising from the chemical** : No specific fire or explosion hazard.

- Hazardous thermal decomposition products** : Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide

- Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
- For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Methods and materials for containment and cleaning up

D8061247 v5.0

## 6. Accidental release measures

- Small spill** : Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## 7. Handling and storage

### Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8).

- Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## 8. Exposure controls/personal protection

### Control

#### Occupational exposure limits

| Ingredient name       | Exposure limits   |
|-----------------------|---|
| dl-Limonene (racemic) | <b>AIHA WEEL (United States, 10/2011).</b><br>TWA: 30 ppm 8 hours.  |
| Citral                | <b>ACGIH TLV (United States, 4/2014).</b><br><b>Absorbed through skin. Skin sensitizer.</b><br>TWA: 5 ppm 8 hours. Form: Inhalable fraction and vapor |

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### Individual protection measures

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

### Skin protection

D8061247 v5.0

## 8. Exposure controls/personal protection

- Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## 9. Physical and chemical properties

### Appearance

**Physical state** : Solid. [Gel]

**Color** : Off-white.

**Odor** : Characteristic.

**Odor threshold** : Not available.

**pH** : Not available.

**Melting point** : Not available.

**Boiling point** : Not available.

**Flash point** : Not available.

**Evaporation rate** : Not available.

**Flammability (solid, gas)** : Not available.

**Lower and upper explosive (flammable) limits** : Not available.

**Vapor pressure** : Not available.

**Vapor density** : Not available.

**Relative density** : Not available.

**Solubility** : Not available.

**Partition coefficient: n-octanol/water** : Not available.

**Auto-ignition temperature** : Not available.

**Decomposition temperature** : Not available.

**Viscosity** : Not available.

**Flow time (ISO 2431)** : Not available.

## 10. Stability and reactivity

**Reactivity** : No specific test data related to reactivity available for this product or its ingredients.

**Chemical stability** : The product is stable.

**Possibility of hazardous reactions** : Under normal conditions of storage and use, hazardous reactions will not occur.

**Conditions to avoid** : No specific data.

D8061247 v5.0

## 10. Stability and reactivity

**Incompatible materials** : No specific data.

**Hazardous decomposition products** : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

| Product/ingredient name   | Result      | Species | Dose       | Exposure |
|---------------------------|-------------|---------|------------|----------|
| dl-Limonene (racemic)     | LD50 Oral   | Rat     | 5300 mg/kg | -        |
| alpha-Hexylcinnamaldehyde | LD50 Oral   | Rat     | 3100 mg/kg | -        |
| dl-Citronellol            | LD50 Dermal | Rabbit  | 2650 mg/kg | -        |
|                           | LD50 Oral   | Rat     | 3450 mg/kg | -        |
| Citral                    | LD50 Dermal | Rabbit  | 2250 mg/kg | -        |
|                           | LD50 Oral   | Rat     | 3.45 g/kg  | -        |
| Linalool                  | LD50 Dermal | Rabbit  | 5610 mg/kg | -        |
|                           | LD50 Dermal | Rat     | 5610 mg/kg | -        |
|                           | LD50 Oral   | Rat     | 2790 mg/kg | -        |

**Conclusion/Summary** : Based on available data, the classification criteria are not met.

#### Irritation/Corrosion

| Product/ingredient name   | Result                   | Species    | Score | Exposure                | Observation |
|---------------------------|--------------------------|------------|-------|-------------------------|-------------|
| dl-Limonene (racemic)     | Skin - Moderate irritant | Rabbit     | -     | 24 hours 500 milligrams | -           |
| alpha-Hexylcinnamaldehyde | Skin - Severe irritant   | Guinea pig | -     | 24 hours 100 milligrams | -           |
|                           | Skin - Moderate irritant | Rabbit     | -     | 24 hours 500 milligrams | -           |
|                           | Skin - Severe irritant   | Rabbit     | -     | 24 hours 100 milligrams | -           |
| dl-Citronellol            | Eyes - Moderate irritant | Rabbit     | -     | 0.42 Percent            | -           |
|                           | Skin - Severe irritant   | Guinea pig | -     | 24 hours 100 milligrams | -           |
|                           | Skin - Moderate irritant | Man        | -     | 48 hours 16 milligrams  | -           |
|                           | Skin - Moderate irritant | Rabbit     | -     | 4 hours 0.42 Percent    | -           |
|                           | Skin - Severe irritant   | Rabbit     | -     | 24 hours 100 milligrams | -           |
|                           | Skin - Severe irritant   | Rabbit     | -     | 4 hours 0.5 Milliliters | -           |
| Citral                    | Skin - Moderate irritant | Guinea pig | -     | 48 hours 1 Percent      | -           |
|                           | Skin - Severe irritant   | Guinea pig | -     | 24 hours 100 milligrams | -           |
|                           | Skin - Mild irritant     | Human      | -     | 24 hours 40 milligrams  | -           |
|                           | Skin - Severe irritant   | Man        | -     | 48 hours 16 milligrams  | -           |
|                           | Skin - Severe irritant   | Pig        | -     | 48 hours 50 milligrams  | -           |
|                           | Skin - Moderate irritant | Rabbit     | -     | 24 hours 500 milligrams | -           |
|                           | Skin - Severe irritant   | Rabbit     | -     | 24 hours 100            | -           |

### Conclusion/Summary

- Skin** : Based on Calculation method:Non Irritant
- Eyes** : Based on Calculation method:Non Irritant
- Respiratory** : Based on available data, the classification criteria are not met.

### Sensitization

Not available.

### Conclusion/Summary

- Skin** : Based on available data, the classification criteria are not met.
- Respiratory** : Based on available data, the classification criteria are not met.

### Mutagenicity

Not available.

- Conclusion/Summary** : Based on available data, the classification criteria are not met.

### Carcinogenicity

Not available.

- Conclusion/Summary** : Based on available data, the classification criteria are not met.

### Reproductive toxicity

Not available.

- Conclusion/Summary** : Based on available data, the classification criteria are not met.

### Teratogenicity

Not available.

- Conclusion/Summary** : Based on available data, the classification criteria are not met.

### Specific target organ toxicity (single exposure)

Not available.

### Specific target organ toxicity (repeated exposure)

Not available.

### Aspiration hazard

D8061247 v5.0

## 11. Toxicological information

| Name                  | Result                         |
|-----------------------|--------------------------------|
| dl-Limonene (racemic) | ASPIRATION HAZARD - Category 1 |

**Information on the likely routes of exposure** : Not available.

### Potential acute health effects

**Eye contact** : No known significant effects or critical hazards.  
**Inhalation** : No known significant effects or critical hazards.  
**Skin contact** : No known significant effects or critical hazards.  
**Ingestion** : No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact** : No specific data.  
**Inhalation** : No specific data.  
**Skin contact** : No specific data.  
**Ingestion** : No specific data.

### Delayed and immediate effects and also chronic effects from short and long term exposure

#### Short term exposure

**Potential immediate effects** : Not available.  
**Potential delayed effects** : Not available.

#### Long term exposure

**Potential immediate effects** : Not available.  
**Potential delayed effects** : Not available.

#### Potential chronic health effects

Not available.

**Conclusion/Summary** : Based on available data, the classification criteria are not met.  
**General** : No known significant effects or critical hazards.  
**Carcinogenicity** : No known significant effects or critical hazards.  
**Mutagenicity** : No known significant effects or critical hazards.  
**Teratogenicity** : No known significant effects or critical hazards.  
**Developmental effects** : No known significant effects or critical hazards.  
**Fertility effects** : No known significant effects or critical hazards.

### Numerical measures of toxicity

#### Acute toxicity estimates

Not available.

D8061247 v5.0

## 12. Ecological information

### Toxicity

| Product/ingredient name | Result   | Species   | Exposure             |

| Linalool                | Acute EC50 36.7 ppm Fresh water<br>Acute LC50 28.8 ppm Fresh water   | Daphnia - Daphnia magna<br>Fish - Oncorhynchus mykiss   | 48 hours<br>96 hours |

### Persistence and degradability

| Product/ingredient name | Test | Result                     | Dose | Inoculum |
|-------------------------|------|----------------------------|------|----------|
| Linalool                | -    | 62.4 % - Readily - 28 days | -    | -        |

| Product/ingredient name | Aquatic half-life | Photolysis | Biodegradability |
|-------------------------|-------------------|------------|------------------|
| Linalool                | -                 | -          | Readily          |

### Bioaccumulative potential

| Product/ingredient name | LogP <sub>ow</sub> | BCF   | Potential |
|-------------------------|--------------------|-------|-----------|
| dl-Limonene (racemic)   | 4.57               | -     | high      |
| dl-Citronellol          | 3.41               | -     | low       |
| Citral                  | 2.76               | 89.72 | low       |
| Linalool                | 2.84               | -     | low       |

### Mobility in soil

Soil/water partition coefficient (K<sub>oc</sub>) : Not available.

Other adverse effects : No known significant effects or critical hazards.

## 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

D8061247 v5.0

## 14. Transport information

Not a DOT controlled material (United States). Not a TDG-controlled material. This preparation is not classified as dangerous according to international transport regulations (ADR/RID, IMDG or ICAO/IATA).

## 15. Regulatory information

**U.S. Federal regulations** : **TSCA 8(a) PAIR:** 2-(4-tert-butylbenzyl)propionaldehyde; nonanal; octanal;  $\alpha$ -hexylcinnamaldehyde; decanal; 3,5,5-trimethylhexanal; 2-benzylideneheptanal; phenylacetaldehyde  
**TSCA 8(a) CDR Exempt/Partial exemption:** Not determined  
**Commerce control list precursor:** 2,2',2''-nitritotriethanol  
**United States inventory (TSCA 8b):** All components are listed or exempted.  
**Clean Water Act (CWA) 311:** potassium hydroxide

**Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)** : Listed

**Clean Air Act Section 602 Class I Substances** : Not listed

**Clean Air Act Section 602 Class II Substances** : Not listed

**DEA List I Chemicals (Precursor Chemicals)** : Not listed

**DEA List II Chemicals (Essential Chemicals)** : Not listed

### SARA 302/304

| Name                                       | %       | Fire hazard | Sudden release of pressure | Reactive | Immediate (acute) health hazard | Delayed (chronic) health hazard |
|--|---------|-------------|----------------------------|----------|---------------------------------|---------------------------------|
| dl-Limonene (racemic)                      | 0.1 - 1 | Yes.        | No.                        | No.      | Yes.                            | No.                             |
| alpha-Hexylcinnamaldehyde                  | 0.1 - 1 | No.         | No.                        | No.      | Yes.                            | No.                             |
| dl-Citronellol                             | 0.1 - 1 | No.         | No.                        | No.      | Yes.                            | No.                             |
| Citral                                     | 0.1 - 1 | No.         | No.                        | No.      | Yes.                            | No.                             |
| Linalool                                   | 0.1 - 1 | Yes.        | No.                        | No.      | Yes.                            | No.                             |
| 2,4-Dimethyl-3-cyclohexen-1-carboxaldehyde | 0.1 - 1 | Yes.        | No.                        | No.      | Yes.                            | No.                             |

### State regulations

**Massachusetts** : The following components are listed: CARRAGEENAN (DEGRADED)

**New York** : None of the components are listed.

**New Jersey** : None of the components are listed.

D8061247 v5.0

## 15. Regulatory information

**Pennsylvania** : The following components are listed: CARRAGEENAN; PROPANOL, OXYBIS-

### Canada

**WHMIS (Canada)** : Not controlled under WHMIS (Canada).

#### Canadian lists

**Canadian NPRI** : None of the components are listed.

**CEPA Toxic substances** : None of the components are listed.

**Canada inventory** : All components are listed or exempted.

### Label elements

**Signal word** : No signal word.

**Hazard statements** : Prolonged or frequent skin contact may cause an allergic reaction.

**Precautionary measures** : Keep out of the reach of children.  
Avoid contact with eyes, skin and clothing.  
Do not ingest.

**Recommendations** : People suffering from perfume sensitivity should be cautious when using this product.  
Air Fresheners do not replace good hygiene practices.

## 16. Other information

**Hazardous Material  
Information System (U.S.A.)** :

|                     |   |
|---------------------|---|
| Health              | 2 |
| Flammability        | 0 |
| Physical hazards    | 0 |
| Personal protection | B |

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.

## 16. Other information

Copyright ©2001, National Fire Protection Association, Quincy, MA 02269. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactivity hazards of chemicals. The user is referred to certain limited number of chemicals with recommended classifications in NFPA 49 and NFPA 325, which would be used as a guideline only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.

**Key to abbreviations** :

- ATE = Acute Toxicity Estimate
- BCF = Bioconcentration Factor
- GHS = Globally Harmonized System of Classification and Labelling of Chemicals
- IATA = International Air Transport Association
- IBC = Intermediate Bulk Container
- IMDG = International Maritime Dangerous Goods
- LogPow = logarithm of the octanol/water partition coefficient
- MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)
- UN = United Nations
