# SAFETY DATA SHEET

Airborne® Chewable Tablets With More Natural Ingredients

#### 1. Product and company identification : Airborne® Chewable Tablets With More Natural Ingredients Product name **Distributed by** : Reckitt Benckiser LLC. Morris Corporate Center IV 399 Interpace Parkway (P.O. Box 225) Parsippany, New Jersey 07054-0225 +1 973 404 2600 **Emergency telephone** : 1-800-338-6167 number (Medical) **Emergency telephone** : 1-800-424-9300 (U.S. & Canada) CHEMTREC number (Transport) Outside U.S. and Canada (North America), call Chemtrec:703-527-3887 Website: : http://www.rbnainfo.com **Product use** : Vitamins.

This SDS is designed for workplace employees, emergency personnel and for other conditions and situations where there is greater potential for large-scale or prolonged exposure, in accordance with the requirements of USDOL Occupational Safety and Health Administration.

This SDS is not applicable for consumer use of our products. For consumer use, all precautionary and first aid language is provided on the product label in accordance with the applicable government regulations, and shown in Section 15 of this SDS.

| SDS #            | : D8348033 v 1.0  |

| Substance/mixture                | : Mixture |                    |                      |
|----------------------------------|-----------|--------------------|----------------------|
| Ingredient name                  |           | %                  | CAS number           |
| ascorbic acid<br>magnesium oxide |           | 15 - 30<br>1 - 2.5 | 50-81-7<br>1309-48-4 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

### 4. First aid measures

US

#### **Description of necessary first aid measures**

| Eye contact  | : In case of contact with eyes, rinse immediately with plenty of water. If irritation persists, get medical attention.  |
|--------------|---|
| Inhalation   | <ul> <li>In the event of any complaints or symptoms, avoid further exposure. Maintain an open<br/>airway. Get medical attention if adverse health effects persist or are severe.</li> </ul> |
| Skin contact | <ul> <li>In the event of any complaints or symptoms, avoid further exposure. Rinse skin with<br/>water. Get medical attention if symptoms occur.</li> </ul>                                 |
| Ingestion    | : Wash out mouth with water. Get medical attention if adverse health effects persist or are severe. Do not induce vomiting. If affected person is conscious, give plenty of water to drink. |

|                           | are severe. Do not induce vomiting. If affected person is conscious, give plenty of water to drink.   |
|---------------------------|---|
| Most important symptom    | s/effects, acute and delayed  |
| Potential acute health ef | ffects  |
| Eye contact               | : No known significant effects or critical hazards.   |
| Inhalation                | : No known significant effects or critical hazards.   |
| Skin contact              | : No known significant effects or critical hazards.   |
| Ingestion                 | : No known significant effects or critical hazards.   |

| Ingestion                 | : No specific data.   |
| Indication of immediate n | nedical attention and special treatment needed, if necessary  |
| Notes to physician        | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
| Specific treatments       | : No specific treatment.  |
| Code # : FF3077560_       | D8348033 SDS # : D8348033 v 1.0 Date of issue : 04/09/2018 2/11   |

### 4. First aid measures

**Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

#### 5. Fire-fighting measures Extinguishing media Suitable extinguishing : Use an extinguishing agent suitable for the surrounding fire. media **Unsuitable extinguishing** : None known. media Specific hazards arising : No specific fire or explosion hazard. from the chemical Hazardous thermal : Decomposition products may include the following materials: decomposition products carbon dioxide carbon monoxide metal oxide/oxides **Special protective actions** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable for fire-fighters training. **Special protective** : Fire-fighters should wear appropriate protective equipment and self-contained breathing equipment for fire-fighters apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### 6. Accidental release measures

| <u>ctiv</u> | e equipment and emergency procedures   |
|-------------|--|
| :           | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate personal<br>protective equipment.   |
| :           | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
|             | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).  |
| ont         | ainment and cleaning up  |
| :           | Stop leak if without risk. Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container.  |
| :           | <ul> <li>Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.</li> <li>See Section 1 for emergency contact information.</li> <li>See Section 8 for information on appropriate personal protective equipment.</li> <li>See section 13 for waste disposal information.</li> </ul> |
|             | :<br>:<br>:<br>:<br>:  |

3/11

# 7. Handling and storage

### Precautions for safe handling

| Protective measures  | : | Put on appropriate personal protective equipment (see Section 8). Avoid contact with eyes, skin and clothing. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
|--|---|---|
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Do not store above the following temperature: 30°C (86°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.                                       |

# 8. Exposure controls/personal protection

#### <u>Control</u>

| Occupational exposure li         | <u>mits</u>   |
|----------------------------------|---|
| Ingredient name                  | Exposure limits   |
| magnesium oxide                  | ACGIH TLV (United States, 4/2014).<br>TWA: 10 mg/m <sup>3</sup> 8 hours. Form: Inhalable<br>fraction<br>OSHA PEL 1989 (United States, 3/1989).<br>TWA: 10 mg/m <sup>3</sup> 8 hours. Form: Total<br>particulates<br>OSHA PEL (United States, 2/2013).<br>TWA: 15 mg/m <sup>3</sup> 8 hours. Form: Total<br>particulates   |
| Appropriate engineering controls | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
| Environmental exposure controls  | : Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.   |
| Individual protection meas       | ures  |
| Hygiene measures                 | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection              | : If operating conditions cause high dust concentrations to be produced, use dust goggles.  |
| Skin protection                  |   |
| Hand protection                  | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.   |
| Body protection                  | <ul> <li>Personal protective equipment for the body should be selected based on the task being<br/>performed and the risks involved and should be approved by a specialist before<br/>handling this product.</li> </ul>   |
| Code # : FF3077560_D<br>US       | 8348033 SDS # : D8348033 v 1.0 Date of issue : 04/09/2018 4/11  |

| Physical state                               | : Solid. [Tablet.]        |
| Color  | : Light beige with specks |
| Odor   | : Orange.                 |
| Odor threshold                               | : Not available.          |
| рН   | : Not available.          |
| Melting point                                | : Not available.          |
| Boiling point                                | : Not available.          |
| Flash point                                  | : Not available.          |
| Evaporation rate                             | : Not available.          |
| Flammability (solid, gas)                    | : Not available.          |
| Lower and upper explosive (flammable) limits | : Not available.          |
| Vapor pressure                               | : Not available.          |
| Vapor density                                | : Not available.          |
| Relative density                             | : Not available.          |
| Solubility                                   | : Not available.          |
| Partition coefficient: n-<br>octanol/water   | : Not available.          |
| Auto-ignition temperature                    | : Not available.          |
| Decomposition temperature                    | : Not available.          |
| Viscosity                                    | : Not available.          |
| Flow time (ISO 2431)                         | : Not available.          |

# 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : Do not use with other products.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

# 11. Toxicological information

| Product/ingredient name | LogPow | BCF | Potential |
|-------------------------|--------|-----|-----------|
| ascorbic acid           | -1.85  | -   | low       |

| <u>Mobility in soil</u>                |                  |
|--|------------------|
| Soil/water partition coefficient (Koc) | : Not available. |

Other adverse effects : No known significant effects or critical hazards.

### 13. Disposal considerations

#### **Disposal methods**

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
